"Please note that scores give you *insight* into the puppy's personality. It is imperative you work with your breeder for guidance concerning specific puppies. It is not feasible to factor in all variables of a pup's temperament in one aptitude test; nonetheless, this report does provide you a solid understanding of temperament and how that may correspond to your specific needs. It is our mission to give each puppy a voice in their placement **empowering** you to make a powerful and magical match!"

Jeanette Forrey - Founder

Score Interpretations

Pet Homes

Type of Home	Desired Traits	Obstacles
With Young Children NOTE: The age of children does need to be taken into consideration.	<ul style="list-style-type: none"> Human focus Low sight sensitivity Low sound sensitivity 	<ul style="list-style-type: none"> High Prey Drive High Energy High Assertiveness Low touch tolerance Low nerve strength / resiliency Extremely tenderhearted
Young Adult(s) (or no children at present) NOTE - If a young couple expects to have children in the near future, keep that in mind when providing guidance.	Varies on individual's / couple's needs and desires	Varies on individual's / couple's needs and desires
Retired	Varies on individual's / couple's needs and desires	<ul style="list-style-type: none"> High Energy High Prey Drive
Emotional Support Animal (ESA) for People with Depression and / or Anxiety	<ul style="list-style-type: none"> Human focus Low sight sensitivity Low sound sensitivity 	<ul style="list-style-type: none"> High Energy High Prey Drive Extremely or highly tenderhearted Low touch tolerance Low nerve strength / resiliency Low Confidence

Score Interpretations

Working Homes

Type of Work	Desired Traits	Obstacles
<p>Service Dog NOTE - You must know the following information to accurately evaluate:</p> <ul style="list-style-type: none"> Type of services the dog will be trained to perform Age of the handler Handler ability Professional vs. owner-trained Environment in which the dog will be worked (school, office, in-home only etc.) Level of activity / hours expected to work Traits from multiple categories may be needed 	<ul style="list-style-type: none"> High confidence Low sight sensitivity Low sound sensitivity High motivation High nerve strength/resiliency <p><u>Other traits that may be beneficial:</u></p> <ul style="list-style-type: none"> Item Retrieval - If the puppy is proud to carry items but exhibits a generally low prey drive, he or she may be well-suited for mobility / psychiatric work etc., assuming he or she exhibits the other desired traits. Nose Awareness - If the puppy desires to explore its environment with his or her nose, constantly sniffing the ground or air, he or she may be well-suited for diabetic alert or other nose work, assuming he or she exhibits the other desired traits. 	<ul style="list-style-type: none"> Low Assertiveness Low energy Low touch tolerance Extremely Tenderhearted <p><u>Things to keep in mind:</u></p> <ul style="list-style-type: none"> If a pup exhibits low assertiveness and / or is highly or extremely tenderhearted, this pup should not be placed in a psychiatric, seizure alert or medical response capacity. If a pup exhibits low prey drive, he or she may not be a good candidate for scent work, such as a diabetic alert dog or search and rescue.
<p>Therapy Dog NOTE - You must know the following information to accurately evaluate:</p> <ul style="list-style-type: none"> Type of therapy the dog must perform and the people that he or she will interact with Handler ability and experience Professional vs. owner-trained Environment in which the dog will be worked (school, nursing home, hospital etc.) 	<ul style="list-style-type: none"> High touch tolerance Low sight sensitivity Low sound sensitivity Human focus 	<ul style="list-style-type: none"> High prey drive High energy High assertiveness (depends on the handler's experience) Extremely tenderhearted Low nerve strength / resiliency Low confidence <p><u>Things to keep in mind:</u></p> <ul style="list-style-type: none"> Highly tenderhearted pups may not be able to handle intense emotional environments.
<p>Facility Dog NOTE - You must know the following information to accurately evaluate:</p> <ul style="list-style-type: none"> Type of facility work the dog must perform and the people that he or she will interact with Handler ability and experience Professional vs. owner-trained Environment in which the dog will be worked (school, hospital, airport, nursing home, prison, church etc.) Level of activity / hours expected to be worked 	<ul style="list-style-type: none"> High touch tolerance Low sight sensitivity Low sound sensitivity Human focus 	<ul style="list-style-type: none"> High prey drive Low touch tolerance High assertiveness (depends on the handler's ability) Extremely tenderhearted Low nerve strength / resiliency Low confidence <p><u>Things to keep in mind:</u></p> <ul style="list-style-type: none"> Highly tenderhearted pups may not be able to handle intense emotional environments.
