"Please note that scores give you *insight* into the puppy's personality. It is imperative you work with your breeder for guidance concerning specific puppies. It is not feasible to factor in all variables of a pup's temperament in one aptitude test; nonetheless, this report does provide you a solid understanding of temperament and how that may correspond to your specific needs. It is our mission to give each puppy a voice in their placement **empowering** you to make a powerful and magical match!"

Notes
 He loves to use his nose and his carry/play with toys. Keep his nose busy with brain games, hide and seek activities and of course implement the treat game (avoid being the taker, instead always be the giver). The handout is in the puppy packet for all puppies to learn.

Notes

Orange is a great puppy that does "speed up" upon stress and unsureness. Be careful to not reward that "excitement". As with all puppies meet their needs in order and reward calm and focused behavior. Lots of potential in this pup. The crying heard briefly during his video was not him nor any of his littermates.
